

Family Spirit Referral

Overview:

Family Spirit is an evidence based home visitation program through John Hopkins Center for American Indian Health. The goal of our program is to produce healthier pregnancies and healthier future generations through: Providing health education around pregnancy, parenting, child development, connecting families with community resources and providing life skills education.

Who is eligible?

*Must be registered at Fresno American Indian Health Project.

*28 weeks gestation up to 3 years of age.

FAIHP Family Spirit Program may do additional screening to determine eligibility
